---

## Academic Experience

<b>Employment and Service Platform for Professionals and Skilled Workers</b>	Present
--	---------

Mobile Application | AI | Final Year Project

Supervised by **Dr. Shuja Ur Rehman Baig**

Developed a **cross-platform app** connecting professionals with job opportunities and service requests. Developed using **ASP.NET**, **microservices**, with **React Native** for the frontend and Entity Framework for data management, enabling real-time matching and secure transactions.

---

### Essence of Flowers | Ecommerce Store

Webiste | Web Engineering

Supervised by **Dr. Shuja Ur Rehman Baig**

Our flower website, developed using **ASP.NET**, offers a seamless online experience for users to explore and purchase a wide variety of flowers. The platform features a **user-friendly** interface with dynamic content management, ensuring a delightful shopping experience.

---

### Drive Recording | Video Recording App

Mobile Application | Mobile Application Development

Supervised by **Dr Mian Muhammad Mubasher**

Developed an Android app for recording driving videos with real-time **GPS location** tracking. Each video frame is mapped on an interactive display, showing frame number, date, time, **location**, and frame preview image on a map. Enabled seamless **integration of video** and **geolocation data**, providing detailed route insights through frame-based mapping

---

## Expertise

C++	JavaScript	Python
C sharp	HTML	Api integration
React Native	CSS	Android
Asp.net	Sql	BoostStrap
MVC	MySqlServer
